

Make your own Smokey Bear Hot-Air Balloon!

INSTRUCTIONS

You need:

the balloon page
scissors
10" of string
1/16" hole punch
glue

1. Cut out pieces along solid black lines as indicated and punch holes.
2. Fold pieces along dashed gray fold lines as indicated below.
3. Tie a knot in end of string leaving a 1" 'tail'.
4. Insert string through hole in gondola so knot is on blank/back side.
5. Fold gondola piece in half and glue together with knot and 'tail' on the inside.
6. Stack the envelope pieces in numerical order, with #1 on top.
7. Attach gondola to bottom of stacked envelope pieces with string. Thread string through the holes in the bottom of stacked envelope pieces. String should go in on printed/front side, starting with #1
8. Pull gondola up to the envelope
9. Thread string through the holes in the top of stacked envelope pieces. String should go in on the blank/back side.
10. Starting with the bottom of the stack(#7) slide each panel out from underneath the others to make a round shape. Balloon panels will try to hide behind each other. Press gently on balloon top to check if panels are evenly spread.
11. Thread hat onto string, going in on the back/blank side. Position so that "SMOKEY" is over the face. and glue to the string at the top of the envelope so it keeps its round shape.
12. Slide the ear "tabs" together and glue.
13. Tie a loop in the remaining string to hang your balloon.
